

ATLAS Learning Academy

Achievement Through Leadership, Adventure and Service

ATLAS in its first months...

OUR PROGRAM

ATLAS Learning Academy had a terrific start of the school year! In a little over one month after opening, we are already serving 18 students in grades 5-12.

ATLAS Learning Academy serves K-12 students using a hybrid teaching model designed to provide customized and active learning emphasizing high academic achievement, leadership, character development, outdoor education/project based learning and teamwork.

Why Choose ATLAS Learning Academy?

We believe in creating an experience between student, teacher and parent to develop a connected and committed professional learning environment to create:

- An understanding of one's own strengths, talents and skills as well as appreciation for other in the pursuit of excellence
- The inclination, desire, academic and technical skills necessary to expand one's own abilities and knowledge base.
- A realistic self confidence.
- The ability to harness knowledge to work cooperatively and independently to solve unexpected problems, think creatively and critically, and persuasively convey ideas.
- A new balance between the fast-paced technological world and the natural world.

Become connected to your learning environment through a unique and creative independent study program.

OUR FACILITY

Our facility is getting more impressive by the day! We have painted the entire inside and have pictures of students up everywhere. We've used some old reclaimed wood and recycled boots to give the building the "outdoor adventure" feel we are striving for.

We have three learning rooms for students to come in and work on their own time. Students are also coming in to work together collaboratively in the learning rooms.

Our gear room is growing exponentially as well. We now have equipment to take to 12 students at a time on expeditions. From backpacks, tents, sleeping bags, down jackets, stoves, water purification, snowshoes, trekking poles and more...we have what students need to be safe and successful in the backcountry.

OUTDOOR ADVENTURES

- Our 2 night/3 day backpacking trip to Long Lake near Donner Summit was a completed success with 4 students in August.
- We couldn't have asked for better cool weather on our 8-mile hike on the Rubicon Trail at Lake Tahoe in September.
- Our next trip is a 2 night/3 day trip to Yosemite in October!
